Taken by The Revd Alicia Dring

BROOKFIELDS

Private Nursing Home

Can you name these close up pictures of Spring flowering bulbs?

Daffodil, tulip, crocus, cyclamen, snowdrop and bluebell

Snowdrops ... did you know?

It's a Greek name – 'Galanthus' translates as 'milk flower'.

A single *Galanthus plicatus* 'Golden Fleece' sold for £1,390 on eBay in 2015!

Rare snowdrop varieties are not usually easy to propagate,
hence the hefty price tag per bulb!

Snowdrops were named after earrings not drops of snow.

There are more than 2,500 varieties of snowdrop.

They are symbolic of spring, purity and religion.

The snowdrop isn't a UK native. They became fashionable in the Victorian era but, due to it being known under several different names, no one knows for sure when they were first introduced to the UK. The first records of plants in the wild date from 1778 – but botanist John Gerard is said to have described the snowdrop in his writings from 1597.
